

New Safety Committee Page Created

To make it easier to find the posters and other information that the safety committee has provided, a safety committee webpage has been produced. Katie Hall created the link and organized this page for us. To view it just log onto www.dcls.org/safety_committee. Many of the current and prior safety posters can be found here (see figure 1) That way, if you want to review any of the information that was found on one of these posters after it has been taken down, you can now do so easily. Supervisors, if one of the posters gets damaged, you will now be able to print and post a new one. Another benefit to this page will be having future access to these posters. We plan to revisit some of the topics we created training posters for from time to time so that new employees will get this information also.

Please take the time to take a look at this new page. If you have any suggestions for changes or for a training topic that you would like to see covered, please let the safety committee know about them. We encourage you to be actively involved with promoting safe work practices and policies and welcome your input.

Stay safe – Ann Marie

The screenshot shows the DCLS Safety Committee webpage. The header includes the DCLS logo with the tagline "LIBRARY OPEN FOR DISCOVERY" and a navigation bar with icons for Kids, Teens, Research, Services, Events & Programs, About The Library, Support, and Locations.
